Curriculum Vitae

Amrit Bohara, Agricultural Engineer

Phone: +977-9846155180 | Email: amrit6802@gmail.com | Permanent Address: Beshishahar-02, Lamjung, Nepal

Career Summary

Agricultural Engineer and Manager with over 3+ years of experience delivering technically sound and commercially viable agricultural infrastructure projects. Experienced in design review, cost estimation, site supervision, and project coordination for irrigation systems, greenhouse structures, cold storage facilities, and post-harvest solutions. In my role at the Nepal Agricultural Machinery Entrepreneurs' Association (NAMEA), I work at the intersection of engineering, industry, and policy, coordinating with entrepreneurs, government agencies, and development partners to support promotion of agricultural mechanization. Currently pursuing a Master's in Economics to further strengthen financial analysis and project evaluation skills.

Professional Experience

Manager, *Nepal Agricultural Machinery Entrepreneurs' Association (NAMEA), Sitapaila Kathmandu,* January 2024 – Present

Organizational Management & Coordination

- Coordinated with the Executive Committee and managed the association's day-to-day operations.
- Oversaw Annual General Meetings, organizational audits, and virtual programs focused on taxation and capacity building.

Policy Engagement & Representation

- Represented an association of 440 agricultural machinery entrepreneurs in government and development-sector policy forums.
- Contributed to research, policy reviews, and sector-level recommendations related to agricultural mechanization.
- Actively represented NAMEA in high-level multi-stakeholder forums, providing technical input to shape the amendment of Agriculture Mechanization Promotion Policy.
- Led the coordination and submission of NAMEA's annual policy recommendations to key government bodies (MOALD) and industry partners (FNCCI).

Project & Training Management

- Coordinated and implemented major capacity-building programs, including:
  - 14-day Small Farm Machinery Repair & Maintenance Training in Kirtipur (co-funded by CAIDMP).
  - Three 10-day Capacity Enhancement Trainings for machinery repair technicians in Chitwan, Nepalgunj, and Jhalari (co-funded by USAID Feed the Future Agricultural Inputs Project).

  - 5-day Mini Tiller Repair and Maintenance Training in Kirtipur
- Ensured smooth training delivery through effective site coordination, stakeholder communication, and operational support.

Fund Mobilization & Partnership Development

- Led grant proposal development, fund negotiation meetings, budgeting, and donor reporting.
- Collaborated with development partners such as ICIMOD, USAID, FNCCI, FAN, and other networks to strengthen partnerships and mobilize resources.
- Managed financial documentation and ensured compliance with donor and project requirements

Founder / Consultant, *Subaramba Agro Tech Pvt. Ltd.,* 2023 – Present (Part-time)

- Key Project: Authored the Detailed Project Report (DPR) for a 45 MT cold storage facility for Panchadewal Binayak Municipality, overseeing design, budgeting, and technical specifications.
- Technical Design, Estimation, and Consultation: Designed and estimated polyhouse structures, farm ponds, water tanks, irrigation systems (drip), and post-harvest infrastructure, ensuring technical feasibility and cost efficiency.
- Public Sector Advisory: Provided technical specifications and advisory support to local governments for procurement of agricultural machinery, hi-tech polyhouse, and cold storage rooms.
- Worked closely with clients to align engineering designs with business viability and operational requirements.

Agricultural Engineer, *R&D Innovative Solutions Pvt. Ltd.,* July 2023-January 2024

- Conducted nationwide research on cold storage facilities in Nepal, including a phone survey of 350+ cold storage units across all regions.
- Prepared designs, BOQs, and cost estimates for cold storage facilities.
- Led on-site installation and commissioning of cold storage rooms at multiple locations.
- Coordinated and supervised repair and maintenance projects for cold storage facilities, ensuring system performance and client satisfaction.

Agricultural Engineer (Intern), *G-7 Agriculture Pvt. Ltd.,* May – Aug 2022

- Gained hands-on experience in greenhouse and drip irrigation systems, including installation, operation, and maintenance.
- Assisted in the design and preparation of technical documentation for agricultural engineering projects.

Education

- **Master's in Economics (Ongoing)** — Patan Multiple Campus, Tribhuvan University | *Expected 2026*

- **B.E. in Agricultural Engineering** — Tribhuvan University, Eastern Regional Campus, Dharan | Dec 2017 - Dec 2021 (First Division)
- **+2 in Science** — Prasadi Academy, Lalitpur | Jun 2014 - Jul 2016 (First Division)

Technical Skills

- **Data Collection**: Kobo Toolbox, and Google Forms
- **Mapping and Visualization**: ArcGIS, Google Earth Engine
- **Documentation**: MS Word, and PowerPoint
- **Analysis and Engineering:** Excel, CropWat, AutoCAD

Workshops and Seminar

- Workshop on Current Status of Agricultural Industry and Future Direction organized by National Agriculture Modernization Program (NAMP)
- National Workshop for Strengthening and Identifying Partnership organized by CIMMYT

Professional Membership

- Registered Engineer, Nepal Engineering Council
- Lifetime Member, Nepalese Society of Agricultural Engineer
